You can call me now on my cell at (517) 719-4657. I have some very interesting updates. Cenk. Please also feel free to call. I have clients in Malaysia,Singapore, and China so I am used to the time change. I tried to explain to the Prosecutor that I work 120 hours a week but his little mind couple understand the implications. He spent all day today with his head down looking dejected.... in front of the jury... This doesn't leave us until Thursday when justice is served. I am anticipating a Not Guilty Verdict on all the major charges. They are bullshit. I think I may have hung the jury on the Aggravated Stalking case solely as a result of the prosecutor's ineptitude. If I don't answer send me an email with a phone number and I will attempt to call back. Thursday is judgment day. Either way I believe that I have thoroughly established that Tunc's rights were severely violated and if am able toI secure a Not Guilty Verdict as to the ("frankly complete bullshit") Solicitation Counts I will immediately file a lawsuit against the Lansing Police Department and the Ingham County Sheriff's Department and Prosecutor's office. The reason the prosecutor was so visibly dejected in front of the jury today (I've never seen this before.... You represent your client and you never lose face) was because I warned him that i was going to sue him in Federal Court.... He didn't believe me... Now he knows.... IF YOU TALK TO TUNC HE CANNOT TESTIFY... I THINK THE JIURY MAY COME BACK HUNG ON THE AGG STALKING CHARGE AND ARE ALMOST GUARANTEED TO COME BACK NOT GUILTY ON ALL THE SOLICITATION COUNTS. Tunc Got fucked. I will establish $10,000.000.00 in damages after securing the not guilty verdict. Tunc isn't crazy. The Amercian Justice System is.... Feel free to call. I will be working on a number of other projects as we get a day off tomorrow... or today... Like I said, international business doesn't sleep.
